

HuaXia Math Competition Classes

Houston Hua Xia Chinese School

U.S. Team took 1st place at International Mathematical Olympiad in 3 of the last 4 years in an arena was once dominated by teams from China. Math Competitions and Spelling Bee are favored and dominated by Asian Students. Our communities have always put emphasis on education, especially on STEM (Science, Technology, Engineering, and Mathematics) and have always been strong bases for Math Competitions.

Competitiveness - Math competition challenges our students and sharpens their Math skills. It prepares our children to triumph in the global race with the ability to compete in a world that is increasingly more dynamic and competitive.

Solid Foundation - People are consciously and unconsciously using Data Analysis and applying Probability and Statistics in their daily life decision and planning. Geometry, Algebra, and Calculus lay foundation for Physics and Chemistry are crucial for many technology breakthroughs in this innovating world. With strong math foundation, our students will excel in world of STEM.

HuaXia Math Middle School Math Competition (Grade 6-8)

by **Mr. Wang** and **Dr. Yu**

who have years of experience of coaching students and teams in MATHCOUNTS, TMSCA, UIL, and AMC

HuaXia Math UIL Math Competition (Grade 9-12)

by **Mr. Hunter Lee**, one of the most versatile teachers
