

# Story Creation and Programming Class

Story Creation and Programming Class will teach the fundamentals of how to create and build up a good and eye-catching story and transform it into a program where they can visually see it take life.

While the progress of completing it will depend on the student's imagination and determination, the results will be the same as the goal of this class is to use the student's imagination and build it into a stunning craftsmanship of a story.

## Requirements:

- Students must have a big imagination where they have no trouble with creating story ideas of their own.
- Students must bring a laptop that can run the following programs for the class.
  - Ren'py Visual Novel Maker** — free download off of the internet browser.
  - RPGMaker VX Ace Lite** — free download off of the STEAM browser.
  - OPTIONAL: RPGMaker XP** — \$24.99 program off of the STEAM browser.
  - Picrew** — free online website for character creation.
  - Lemmasoft** — free online website for resources under the **Creative Commons** forum.If the student does not have a laptop that can run the following programs, they must at least have a PC at home that can, otherwise they are unfit for this class.
- Students must have free time at home to work on class projects as well as homework. If parents are against this, please do not enroll their child into this class if they are not willing to give time for the student to work for class projects and the such.
- Students must at the ages 10 years old and up.

If the parent's child/children are interested in enrolling for this class and match the requirements above, then there is no stopping them from learning about Story Creation and Programming. Please be mindful that this class is not an excuse to play around and have fun. If you are here in this class, you are here to learn.

Thank you for reading this class description. I hope you have a wonderful day.
